

## INSTRUMENT STANDS

Industrial Material Corp. (IMC) manufactures and sells instrument stands, allowing us to offer an unbeatable combination of quality, price and service. IMC stock stands are made out of 2" schedule 40 carbon steel pipe and hot-dip galvanized after fabrication. We can also make them to your specifications, add gussets, and/or use alternate materials. Industrial Material sells a complete line of stand accessories including: u-bolts, wedge anchors and perforated metal.

IMC is a metal service center and fabricator providing: cold bending, shape cutting, sawing, shearing, welding and more. Other products we manufacture include: pipe shoes, test blinds, embeds, rebar shapes, and anchor bolts. Industrial Material also stocks metals, fasteners, pipe, fittings, and supplies.
